

AD-01 DC Power Supply (optional)

**Sciencetech AB04 Common Emitter NPN Transistor Characteristics** is a compact, ready to use Transistor Characteristics experiment board. This is useful for students to plot Input, Output & Constant Current Transfer Characteristics of NPN transistor in Common Emitter configuration and to understand active, cutoff and saturation region of operation of NPN transistor.

Sciencetech Analog Electronics Experiment Boards are designed as a comprehensive Modular solution for beginners to explore the fundamentals of a variety of basic building blocks in Analog Electronics. The boards are very user friendly and support self learning through flexibility of making circuit connections. Schematic diagrams on the boards provide easy understating of the concepts. Test points are provided to observe the waveforms/ signals and to measure voltages at different nodes. The boards can be used as standalone unit with external DC Power Supply, or can be used with Sciencetech Analog Labs; Sciencetech 2612/ Sciencetech 2612A/ Sciencetech 2613. These labs have built in DC Power Supply, AC Power Supply, Function Generator, Modulation Generator, Continuity Tester, Toggle Switches, and Potentiometers. Product Tutorial with theory, description, explanation, procedure, references and results is available online on [www.SciencetechLearning.com](http://www.SciencetechLearning.com) .

## Features

- On board test points to observe signals
- On board schematic diagram
- Flexibility of making circuit connections
- Light weight & compact
- Online Product Tutorial

## Scope of Learning

- Study of NPN transistor characteristics in Common Emitter configuration and to evaluate - Input resistance, Output resistance, and Current gain

## Optional

- AD-01 DC Power Supply ( $\pm 12V$ ,  $\pm 5V$ )
- Simtel Analog Electronics Software

Online Product Tutorial
